1) How do you use Pleasoning®?

You can use any of our seasonings in place of other seasonings or salt and pepper when cooking and at the table. They are good on eggs, french fries, cottage cheese and hamburgers. Use them in casseroles, on chicken or other poultry, beef, pork, lamb, game, fish and seafood. Try them on your vegetables, in salads and soups. They even help add flavor to those frozen dinners! Pleasoning® gives you gourmet flavor made simple!

2) Why is salt listed first in the ingredients in some blends?

The ingredients on all Pleasoning® labels are listed by weight, not by volume. Salt is usually listed first because it is heavier, not because there is more. By volume, herbs and spices take up much more space than salt because they are light and fluffy!

3) What's the sodium content of Pleasoning® blends?

ALL of our seasonings have much less sodium than table salt and most other seasoning blends, we even have some that are sodium-free! As a comparison: a ¼ teaspoon serving of table salt contains 590mg sodium (the recommended daily sodium intake is 2300mg). A serving of **All-Purpose Pleasoning® has 78% less sodium than the same size serving of table salt.** Our seasoning blends range in sodium content from 0mg to 230mg sodium per serving. [See Sodium Comparisons - page 16.](#)

4) Why don't you list the herbs and spices used in the ingredients?

The government does not require the listing of the various herbs & spices used in our blends. Each of our seasonings has its own secret recipe!

5) Do any of your products use Potassium Chloride?

NO! We do not use Potassium Chloride in any of our Pleasoning® blends.

6) Why do you use MSG (Monosodium Glutamate)?

MSG (an all natural ingredient) helps enhance the flavor of your food. Several of our seasonings use small amounts of MSG (remember "Accent"?). When you eat cold cuts, hot dogs, certain snack foods and canned soup, you consume a much greater amount of MSG than used in our blends. Over half of our blends do not contain MSG. We list MSG in the ingredients if it is in a blend.

7) What is Pleasonings background?

Pleasoning® has been in business in La Crosse, WI since 1952. We are a small family owned and operated business. Frank Italiano, the founder, worked the business until age 83 (see his story on page 17). His wife, Lenore, retired from Pleasoning® in 2007. Their daughter, Kathy, and son-in-law, Paul Boarman took over the business. It is now run by Kathy (2nd generation) and her son Dominic (3rd generation). **There are a total of 2 full time employees** Kathy and Dominic, with granddaughter Breanna helping out when she can.

Frequently Asked Questions

8) Which blend did I use at the restaurant I ate at?

“All-Purpose” Pleasing® is the blend that is on restaurant tables throughout the Midwest. It is available in many stores in Wisconsin, Iowa and Minnesota. We are a very specialized product so it might not be available in your local stores. Most of our business is done by mail order (mail, phone and the internet). You can order just 1 shaker or 100 shakers. Your order will be shipped out within 2 business days of receipt.

9) “All-Purpose” or “Original” What’s the difference?

They are two totally different blends. “Original” was first marketed in 1952, but Frank’s (the founder) inventiveness didn’t stop there. He came up with another “all-purpose” seasoning that we now call “All-Purpose” Pleasing®. The “Original” does taste saltier than the “All-Purpose”. Both blends are used the same way. “All-Purpose” has become our most popular blend and is found on restaurant tables all over the Midwest. Let your taste buds decide which one you like more!

10) Do you have an Outlet Store?

Yes, our Outlet Store is located at 2109 Ward Avenue in La Crosse, WI. The store is open Monday - Friday, 8:30 AM to 5:00 PM. At our Outlet Store you can taste any or all of our 40 different seasoning blends. So come in and try before you buy!

Comparing the Sodium Content

Serving size = 1/4 teaspoon
Recommended daily sodium intake is 2300mg

590 mg Table Salt
380 mg Lawry’s Seasoned Salt
290 mg Morton’s Lite Salt

A 1/4 teaspoon serving of table salt contains 590mg sodium. A 1/4 teaspoon of “All-Purpose” Pleasing® only contains 130mg sodium. That means “All-Purpose” Pleasing® has 78% less sodium than table salt!

Want excitement and romance in your eating? Maestro Francesco Italiano (Frank) created the PLEASONING blend for you! Through the combination of his musical expertise and a chemistry background he created taste sensations (his Italian mother's use of herbs and spices helped) that you will never want to be without. Frank developed his seasonings to have less sodium than table salt. Your taste buds will lead you to believe they have more salt than they actually do! Aided by his fine sense of gourmet flavor, he treated his herbs and spices as he would treat the musicians in an orchestra, hushing them up to bring other melodies out, allowing harmonies to thrill the senses and bringing out the musical sounds (or gourmet flavors) the composers wanted.

Maestro Italiano traced his research with seasonings back to his experiences in World War II. Having emerged from college with a chemistry and speech degree in education, he was offered a position if he could also handle the high school music department! His high school and college years were filled with musical experiences involving the clarinet. Summer courses in music education got him the job. He distinguished himself by producing high school bands that won awards for their performances. When the war broke out, he chose to enlist to serve the country that had become home to his Italian parents.

When the war ended, his Navy ship took him to Shanghai, China, where he conducted the Shanghai Symphony during its 1945 to 1946 season. He received a special assignment as an official cultural representative to the Government of China during this period. He was invited to the homes of many important merchants and military people and became accustomed to another type of gourmet eating. Once he returned home to resume his teaching career - his two loves - eating and good music continued to blossom. He spent weekends experimenting with herb and spice blends to satisfy his tastes because nothing on the American market filled the need. When his fellow teachers were given some to try - they kept coming back for more. In 1952 he was forced to put it on the market because of the demand of its many users. Frank's creative mind came up with the name **PLEASONING** and a seasoning business was born.

Maestro Italiano was prominent as an orchestra director and a music educator for over 60 years. Some of the distinguished conductors he studied with were Leonard Bernstein, Dr. Thor Johnson and William Henry Smith. He won many awards over the years and conducted hundreds of great works (including 35 performances of Tchaikovsky's "1812 Overture"). Frank, along with his wife Lenore, were the founders of the "Symphony School of America" and "the La Crosse Youth Symphony". Frank also started an adult band called the "Da Capo Band". Paul Boarman, his son-in-law, took over Da Capo Band and conducted it for 14 years. Frank's granddaughter, Jaime Boarman Greenfield, is now the conductor.

Pleasoning has been in business in La Crosse, WI since 1952. Frank worked the business until age 83 and passed away in 2006. His wife, Lenore, retired from Pleasoning in 2007. Their daughter, Kathy, and son-in-law, Paul Boarman took over the business. It is now run by Kathy (2nd generation) and her son Dominic (3rd generation). **There are a total of 2 full time employees** Kathy and Dominic, with granddaughter Breanna helping out when she can.
